**SUN RAINBOW EDUCATION CHARITY FUND PROJECT**

With the fruitful achievements of China's reform and opening-up, China has entered a well-off society in an all-around way.

While making remarkable achievements in the field of economics, the field of culture and art also needs further development. We focus on the operation and management of international high-end artworks, cooperate with outstanding contemporary artists from all over the world, and promote the popularization of humanities and art in Chinese society and international cultural exchanges.

We will hold international art exhibitions in different cities constantly across the country, Part of the fund's income will be donated to children in poverty-stricken areas for their education.
